20 years of experience

MORE years of quiet efficient service are yours in the NORGE Washer because of its exclusive "Quietor" mechanism. At all 10 points where noise develops in the ordinary washer, the NORGE has exclusive adjusting devices which aborb normal wear, insuring many extra years of trouble-free service.

One example of the NORGE "Quietor" mechanism is the automatic "takeup" in the agitator head pictured above. This prevents the noise which develops at this point in the ordinary washer.

point in the ordinary washer.

The NORGE is "Aurobuilt" by NORGE, a division of Borg. Warner Corporation, the world's foremost builder of auromobile transmission geating. In most

washers, the gearing wears out first. Because of NORGE'S 20-year experience in gear manufacture, you can be certain the NORGE is a long life washer.

finner with a lesson for Mr Mockethau. You might call it the lesson on the economizing muster and the kiaxy hounds.

Hunger Strike.

Mi Molgenthau has been cut the down on giavy for the bord dealing hounds month by month giving them smaller and smaller opportunition for a subsistence profit. In fact some of the hounds have been backing among themselves that Mr Molgenthau was not only an economizer but a chizeler.

was not only an economizer but a chiselt.

They become convinced of it when he statted making them but does be been under the auction hidding system of foud floutiles. They decided to leach the economizing mas or a lason by some on a houser strike when he put the bundred millions before them at the time they were in a perfect liquidariem with the hands. The strained period offered them a suitle opportunity to stress heir feelings.

suttle opportunity to stress heiffeelings.

Now my politician will undertake to say a kool word for hond tea cree but Mr. Morgenthau had alviou by sharpened his economying to the breitting point. Their sit of the very is that they should be treated as kood custom is Normanification tries to oblish pries on his customers at least into the limit of taking six cents eights or quarters of a point from them, especially if he manufacturer cycles to remain in business yery long.
